A certain baker in business in a small town in Normandy obtained his supply of butter from a farmer in the neighborh One day he discovered that the pats, which were supposed to weigh three pounds each, were not up to the standard, and further examination revealed a steady diminution in the daily provision. A last the baker lodged a formal complaint against the

farmer, and the affair was brought before the local court. "Have you scales?" inquired the magic

Yes, monsieur le judge," was the reply "And have you any weights?" continued the judge. An answer this time in the negative was as promptly given.
"But how did you manage to weigh you butter?" asked the magistrate,
Then the farmer related that ever since

the baker had taken his butter be had re-turned the compliment by buying his bread. The baker supplied him with three pound loaves, and be had used them as weights for his butter. "It is his fault, not mine, if the weight is not correct," added the farmer, who was speedily acquitted and left the court in triumph with an escort of friends and admirers. Since this trial the farmer is said to have been supplied with more than his due provision of bread, but he has taken good care not to fall into the opposite error, and the bake has now his three pound pats of butter full weight, but not an ounce more.-London

From this it will appear that Santa Fe is relatively warmer in winter and cooler in summer than other places having nearly the same annual temperature. Compare the difference between the coolest month and the warmest month for these places. In Santa Fe the monthly range is 59.8, in Boston, 45.1; Albany, 49.4; Buffalo, 44.8; Detroit, 44.6; Grand Haven, 43.7; North Platte, 52.3; We find that Santa Fe has the spring temperature of northern Illinois and Indiana, the summer temperature of northern Wisconsin and Michigan, the autumn temperature of Wisconsin and Michigan, From this it will appear that Banta Fe is the raising, truck farming and fruit growing.

The valley soils are especially adapted to horticulture and there is at hand a never failing market in the mining camps.

In the southern portion of the county mining forms the principal industry, the large deposits of coal, lead, silver, iron, copper and gold, in veins as well as in the form of placer gold, at Cerrillos, New Placers (Dolores), Golden and San Pedro being justly noted for their richness.

ern Wisconsin and Michigan, the autumn temperature of Wisconsin and Michigan, and the winter temperature of central Illinois and Indiana. In other words, by staying in Santa Fe, the invalid get the favorable summers that a resident of Epring-field, Illinois, can get only by emigrating annually to Lake Superior.
